

## Datacor Insures Smooth Transition to Chempax for Pariser Industries

### Challenges

- Replace discontinued Sage PFW legacy system.
- Improve operational efficiency.
- Gain visibility to make better informed decisions.

### Benefits

- Implemented a flexible and cost effective ERP solution with chemical manufacturing specific functionality.
- Eliminated stand-alone spreadsheets and Access Database Reports to several functions.
- Enhanced corporate wide information sharing.
- Lowered operational and administrative costs.
- Streamlined a wide variety of business process that improved operation efficiency.

*"We are very happy to have chosen Datacor and would definitely recommend them to others. Implementing a new ERP solution is never easy, but having the support from their highly trained team has made all the difference. They have been a tremendous asset to us in our transition from Sage."*

- John Reilley  
Comptroller
